HYPERTHERMIC PERFUSION FIXED PACK

FOR USE WITH THE THERMOCHEM™ FAMILY OF DEVICES

Instructions for Use

Cautions and Warnings:

1. If using any pharmaceutical agents during the procedure please follow the hospital internal guidelines for handling and disposal of any contaminated materials or products, as well as complying with the labelled recommendations of the pharmaceutical manufacturer regarding appropriate protective clothing, handling, and disposal of any contaminated material or products.
2. The user should confirm that this pack is suitable for its intended use.
3. Leakage at any point in the circuit can cause fluid loss. Careful observation of the circuit for leaks before and during circulation is recommended.
4. Do not resterilise and do not reuse the pack or any component of the kit. It is disposable and intended for one time use only.
5. Do not modify. Product may not work as intended if altered.

Installation:

1. Inspect the device and sterile package carefully. Do not use if the sterile package and/or device
   is damaged.
2. Open the Fixed Pack and remove the contents. If providing the contents to the sterile field, use proper sterile technique to transfer contents onto the sterile field.
3. Using a single Fixed Pack cable tie, circle the tubing that you wish to secure.
4. Place the thin pointed end through the square notch on the opposite end.
5. Tighten by hand until a secure fit is obtained.
6. Confirm the Fixed Pack cable tie is secure.
